Education

2018 – Present	🔖	**B.E., Computer Engineering. 3rd Year** Current gpa- 9.51 Thadomal Shahani Engineering College, Mumbai India
2016 – 2018	🔖	**Higher Secondary Certificate.** CBSE - 94.8 % Kendriya Vidyalaya INS Hamla, Mumbai India

Projects Undertaken:

The Social Helper

- 🔖 Worked in a team of three members at a hackathon organized by TSEC Codecell. Built a senior citizen friendly website, to connect an elderly with the nearest registered volunteer, added a chat feature as well. Built with Express, NodeJS and MongoDB.

Shopping App

- 🔖 A shopping app made using React Native, Redux, Redux-Thunk and Firebase. The app consists of an authentication screen to log in or sign up, the shop screen to see all products and product details. The user can add/remove products to/from cart and order them. The admin can create, update and delete products.

Unify - Social Media

- 🔖 Built a social media website where users can post and interact with other users. The user has an option to sign up, create posts, like and comment as well as preview the post before posting. Built with Express, NodeJS and MySQL.

Internship

Solera Life Sciences Private Limited | Front End Web Developer

- 🔖 Developed front-end web applications using ReactJs and NextJs. Helped in redesigning and developing existing web sites. Assisted team with testing code in multiple browsers.
- 🔖 Worked on 10+ user interfaces, building them from scratch with responsiveness as well as guaranteeing smooth UI experience.
